Sidelines on National Opening:

In HEEDS is it news I read anywhere that “Four Daughters” is
being produced as a dramatic piece for the stage? This is
heartening news, for “Four Daughters” is a beautiful novel
and is full of beautiful things. It is a story of love, of friendship,
and of family. It is a story of life, and it is a story of how
people grow and change. It is a story of how people are
affected by the things that happen to them. It is a story of
how people are affected by the world around them. It is a
story of how people are affected by the people they love. It is
a story of how people are affected by the things they do.

Four Daughters’ story is in those areas and areas that make
up the fabric of our lives. It is a story of love, of friendship,
and of family. It is a story of life, and it is a story of how
people grow and change. It is a story of how people are

Boys Mr. Hurst and Mr. Lyon, believe, are appealing
people. They are people who have been through a lot,
and who have learned from it. They are people who have
seen the world and who have lived through it. They are
people who have learned to love and to be loved. They are
people who have learned to be strong and to be
resilient. They are people who have learned to
face the challenges of life. They are people who
have learned to be happy and to be content.

And now see this one, in the person of John Gifford and
Amy Lyman. They are young people, and they are
young people who have been through a lot. They
are young people who have seen the world and who have lived
through it. They are young people who have learned to
love and to be loved. They are young people who
have learned to be strong and to be resilient. They
are young people who have learned to face the
challenges of life. They are young people who
have learned to be happy and to be content.

people grow and change. It is a story of how
people are affected by the things that happen to them. It is

around them. It is a story of how people are
affected by the people they love. It is a story of
